EDUCATION

The University of Chicago

Chicago, IL

BS in Computer Science and BS in Math

Expected, June 2022

GPA: 3.88/4.0

Honors: Dean's List for all quarters

Relevant Courses: Algorithms, Database Systems, Math of Machine Learning, Computational Linguistics

EXPERIENCE

PayPal Remote

Incoming Software Engineer Intern

Starting June 2021

recreaish Remote

Software Development Intern

April 2020 - August 2020

- Improved and maintained Ruby on Rails application for startup with 200+ users
- Implemented venue finder tool, emails with Sendgrid API, share feature, and password reset
- Independently developed React Native webview app, achieved approval from App Store and Play Store

Everest Reinsurance Liberty Corner, NJ June 2019 – August 2019

Summer Intern

Built C# windows service to notify by email when analysis finishes

Reconstructed hail risk model using SQL table and query, end result runs ten times faster

PERSONAL PROJECTS

Tolkein Text | Python (github.com/christian-doucette/tolkein_text)

- Designed and trained neural network language model with LSTM architecture in PyTorch
- Built web interface to generate text based on The Lord of the Rings with trained model

Spotify Unlocked | Ruby (github.com/christian-doucette/cnimusic)

- Built Ruby on Rails web application that displays data and analytics using Spotify API
- Created algorithm for chord recognition from pitch vectors

Quote Tabs | Javascript (github.com/christian-doucette/quote_tabs)

- Chrome extension that displays a random computer science or math quote on new tabs
- Pulls quotes from one of three quote APIs

SKILLS AND INTERESTS

Programming Languages:

- Proficient in Python, Ruby, C
- Experience in Javascript, SQL, Rust, Haskell

Libraries and Frameworks: Ruby on Rails, PyTorch, NumPy, React Native

Other Technologies: Git, Heroku, PostgreSQL, pgAdmin

Interests: Guitar, running, lifting, science fiction books
